

□ christine mondor

education **Carnegie Mellon University**, Bachelor of Architecture, May 1993.
Denmark Institute of Study, University of Copenhagen. Architecture and Sustainable Design. Denmark, 1991.

registration

accreditation **Pennsylvania Architectural Registration**

LEED Accredited Professional, US Green Building Council Leadership in Energy and Environmental Design

practice **evolve: Environment :: Architecture. Pittsburgh. 2004**
Formerly Big Picture Designs. Pittsburgh. 1998-2004.

principal

Cofounder of consulting company specializing in environmental design services including architectural and graphic design, research and facilitation. Projects include green design consulting and facilitation for an aluminum smelting plant in Iceland for ALCOA, a feasibility study for Powdermill Nature Reserve for the Carnegie Museum of Natural History, green design consulting for the Carnegie Libraries of Pittsburgh, stormwater and landscape planning for Changing Seasons Educational Center, educational programming and facilitation for the Green Building Alliance, writing, editing and graphic design for PA Department of Environmental Protection's *High Performance Building Guidelines*.

Hanson Design Group, Ltd. Pittsburgh. October 2000-December 2001.

project manager

Designer, project manager and marketing for architecture, landscape architecture and urban design firm. Work included conceptual exploration such as the design of an Airport Information Kiosk based on the integration of information technology and the human body. Other work explored the development of prototypes of development emphasizing green building and site concepts, including building and site design demonstrative of sustainability concepts in a Nature Center for the Carnegie Museum of Natural History and a green roof retrofit for an historic North Side building.

Gardner+Pope Architects, P.C. Pittsburgh. September 1997- October 2000.

project manager

Designer, project manager and marketing for architecture firm specializing in commercial architecture. Helped lead the firm to develop an expertise in sustainable design. Projects ranged from the Greater Pittsburgh Community Food Bank, one of the first Leadership in Energy and Environmental Design (LEED) rated buildings nationally, to the design for a remote outdoor comfort facility using composting toilets and straw bale/timber construction (awarded Best Built Project and AIA Green Design Award.) Research included working with Carnegie Mellon University's Center for Building Performance and Diagnostics to explore alternatives to conventional speculative office building construction.

TAI + LEE architects, P.C. Pittsburgh. September 1993-September 1997.

project manager

Designer and project manager for architecture firm specializing in residential construction. Work included research projects such as the writing, illustration and graphic design for PA's Residential Energy Act (Act 222) and the design and cost-benefit analyses for a flexible, adaptable, prefabricated construction for a neighborhood non-profit. Community design and construction projects included affordable housing units in Voskamp Village in Spring Garden and Crawford Square in the Hill District. Commercial design projects included the CCI (Eco) Center on the South Side, named one of National AIA's Top Ten Environmental Buildings, 1999.
